EXPERIENCE

TATA CONSULTANCY SERVICES, London Area, UK

DEC 2012 - PRESENT

Senior UX Designer | UX Researcher | Atomic Design

EDUCATION

B.E Computer Science Engineering,

AUG 2008 - JULY 2012

Visvesvaraya Technological University,
Karnataka, India

PROJECTS

Mobile & iPad Apps

Client : *Pfizer, UK*

Role: *UX Engineer, Lead*

- I am a UX Designer, designing for Mobile & We . I play a key role in defining the overall user journey & how users interact on the apps. Primary responsibilities include,Interacting with clients & stakeholders to gather requirements, defining the user journeys, participating in client workshops, building user personas & scenarios, conducting end-user testing and creating high fidelity wireframes or mock ups to establish the design concepts.
- Preparing Visual designs & prototypes for the apps.
- Developing responsive UI for hybrid apps using advanced HTML5 & CSS3

Hybrid Mobile App

Client :   *Deutsche Bank , Frankfurt Germany*

Role: *UX Engineer*

- Performed UX improvements, ideation, designing of new interactions in the existing mobile banking application.
- Created Low Fidelity Screen Designs for new scenarios.

UX SKILLS

User Research,
Wireframing,
Rapid Prototyping,
Design Thinking,
Responsive Web Design,
UI Development,
User Interviews

PROGRAMMING

HTML5, CSS3, SCSS

Javascript,

 RWD

Progressive Web Apps

DESIGN TOOLS

Adobe XD, Figma,

Zeplin

JIRA,

VS Code Editor,

Git, Github

METHODOLOGIES

Agile,

Waterfall

- Supporting other sister projects for finalizing UX interactions.

Responsive Web Application

Client : *Eaton Corporation, Cleveland, USA*

Role: *UX Engineer, Onsite [Cleveland, Ohio, USA]*

- Requirement Gathering & Analysis,
- Participated in Design Workshop finalizing interactions & design elements.
